### PROFESSIONAL SUMMARY

Front End Developer with hands-on experience building responsive, user-focused web applications using React JS, JavaScript (ES6+), and Tailwind CSS. Skilled in component-based architecture, state management with Context API, REST API integration, and performance optimization (98 Lighthouse mobile score). Strong foundation in HTML5, CSS3, and modern tooling (Vite, Git/GitHub), backed by a B.Tech in Computer Science and practical experience explaining technical concepts clearly—translating well into collaborative, cross-functional dev teams.

### TECHNICAL SKILLS

**Frontend:** HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React JS, React Router DOM, Context API

**Backend:** Python, Django Framework

**Database:** MySQL

**Tools & Version Control:** Git, GitHub, Vite, npm

**Practices:** Responsive Design, Mobile-First Development, REST API Integration, Performance Optimization

**Languages:** English, Hindi, Urdu

### PROJECTS

#### Weather App | Frontend React Application

November 2025

- Built a fully responsive weather application allowing users to search real-time weather data by city, serving 50+ test users with 0 reported bugs
- Integrated OpenWeatherMap API to fetch and display live temperature, wind speed, and weather conditions with dynamic icon updates
- Integrated TimeAPI.io for live date/time display; implemented mobile-first UI with Tailwind CSS achieving 98 Lighthouse mobile score

**Technologies:** React JS, Vite, Tailwind CSS, OpenWeatherMap API, TimeAPI.io, React Icons

**GitHub:** [github.com/ERSaood/WeatherWEB](https://github.com/ERSaood/WeatherWEB)

#### E-Commerce Web Application | Frontend React Application

December 2025

- Developed a fully responsive e-commerce platform with 5+ modular pages (Home, Product Details, Cart, Checkout) using React Router DOM for smooth navigation
- Implemented Add-to-Cart, Cart Management, and Checkout flow with dynamic quantity updates; used React Context API for global state management across all components
- Reduced prop-drilling by 100% using Context API, improving code maintainability and component reusability

**Technologies:** HTML, CSS, JavaScript, React JS, React Router DOM, Context API, React Icons

**GitHub:** [github.com/ERSaood/Shopper](https://github.com/ERSaood/Shopper)

### WORK EXPERIENCE

#### IT Training Officer – COPA | MHKITC Technical Institute, Bhopal

December 2024 – Present

- Applied hands-on expertise in HTML, CSS, JavaScript, MySQL, and Python while delivering structured technical instruction to 30+ students per batch, achieving a 90%+ pass rate in trade assessments
- Designed and delivered 100+ hours of practical coding labs, reinforcing real-world front-end and back-end development workflows
- Managed computer lab operations for 20+ workstations including software installation, configuration, and troubleshooting, reducing downtime by 40%
- Communicated complex technical concepts clearly to diverse audiences—a skill directly transferable to team collaboration, documentation, and code reviews

## EDUCATION

---

### **Bachelor of Technology – Computer Science Engineering**

All Saints College of Technology (RGPV) | Graduated June 2022 | CGPA: 7.9/10

## CERTIFICATIONS

---

- Python Full Stack Web Development – Netligent Technologies LLP, Bhopal (Completed)
